## ROBBIE HONEY'S TOP TIPS

### Bring your bouquet to life with personal touches

"Subtly incorporate details from your dress, such as pearls, crystals or a lace overlay on the bouquet's handle. Using a few flowers freshly picked from the bride's parents' garden makes the end result really personal."

### A small budget doesn't mean a small impact

"Fill painted terracotta pots with pretty posies of herbs and seasonal flowers, or decorate tables with swathes of rose petals and tealights for a low-cost but luxe look."

### Have fun with the reception and ceremony flowers

"People expect to see the same flowers and colour scheme at the ceremony and reception, so dare to be different. At a winter wedding, fill the church with reds and pinks and use white and silver at the reception."
